### **DETAILED ACTION**

1. This Office Action is the answer to the amendment, and the RCE dated 9/26/05, which papers have been placed of record in the file.
2. Claims 2-27 are pending in this application.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 27 is rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- Claim 27 recites the limitation "... in according with claim 1." (line 4), this independent claim is directed to an apparatus ; therefore, every details should be listed in the body to avoid an antecedent basis. Currently, there is insufficient antecedent basis for this limitation in the claim (by referring "... in according with claim 1.").

#### ***Allowable Subject Matter***

4. Independent claim 2 is patentable over the closest references of Bilodeau et al. (US Pat. 6,424,430), Liu (US Pat. 6,097,839), and US Pat 4,910,786, because they do not anticipate nor fairly and reasonably teach a method for monitoring motion of a vehicle relative to a road on which the vehicle is traveling, besides other limitations, comprising:

- determining a value that is a function of gradients of pixel intensities at locations along the line for determining a contour of a road from a camera image of a scene that images the road.

- Dependent claims 3-26 are allowed because they are dependent claims of claim 2.
